## Experience

### Freelance Full Stack Developer

Efunding Experts | Austin, Texas

December 2021 - February 2022

As a full-stack developer at Efunding Experts, a funding agency based in the US, I took charge of developing the employees and admin dashboards. Leveraging my expertise in the MERN stack. I implemented robust functionality (APIs) and user-friendly interfaces (UIs), ensuring seamless navigation and efficient workflow management throughout the project.

### Freelance Front-end Developer

SpeakingLine | Turkey

March 2022 - August 2022

During my freelance experience with SpeakingLine, a Turkic startup for English language learning in Turkey, I contributed as a front-end developer within the development team. My role involved translating UI designs created by the design team into interactive web interfaces, seamlessly connecting them to the corresponding APIs.

### Freelance Full Stack Developer

Tshilila Coin | USA

November 2022 - January 2023

My next freelance venture led me to TshililaCoin. While the project didn't come to fruition, the experience of working on a web3 project was immensely enjoyable. It marked my introduction to Solidity and blockchain technology. As the full-stack developer, I took on the responsibility of developing the web application and smart contracts.

## Experience

### Freelance Full Stack Developer

The Coding Pentagon | USA

February 2023 - March 2023

My next freelance project was "The Coding Pentagon," a learning platform aimed at teaching tech professionals business-related skills. I took on the responsibility of developing the educational platform from both the front-end and the back-end. This involved designing and implementing the user interface, as well as building the backend functionalities (APIs).

### Freelance WordPress Developer

VAL24 | USA

April 2023 - April 2023

Developing an E-commerce WordPress website for VAL24, a gaming store focused on selling Valorant merchandise. Although it was a relatively small project, it provided a valuable learning experience. Throughout the development process, I gained significant insights into building an E-commerce platform, implementing product catalogs, shopping carts, and payment gateways.
